NUMBER 210.

SULTAN IS SOVEREIGN.

He is Also Being Hounded by Some of the Other Crowned Heads.

TROUBLOUS TIMES FOR ABDUL HAMID

Russia Gives Him a Poke For Failing to Keep a Promise—France Wants a Settlement—General Kick on Sanitary Affairs—Foreign.

Constantinople, July 2.—The sultan agreed to comply with the demand made by the Russian government for the release of the Servians recently arrested in Albania, together with the restoration of the arms taken, and for recall of Djemal Bey, the mutessarif of Prishtina, the instigator of the arrests. Notwithstanding this prompt compliance the arrests were continued, and Russia has repeated her demand in peremptory terms.

France is pressing for a settlement in connection with the French-owned docks, the contract calling for their purchase by Turkey.

All the legations are making representations against interference by the porte with the decisions of the sanitary council. The palace officials receive these protests with the utmost serenity, replying that the sultan is sovereign of Turkey.

Another Gambling Hell.

Budapest, July 29.—The papers here are filled with accounts of a project said to be promoted by American financiers, for the creation of another but more luxurious Monte Carlo on Magarethen Island, opposite the upper end of the city, in the Danube.

Routed the Mad Mullah.

Aden, Arabia, July 29.—In a fight between the Mad Mullah and the British July 17 the former was routed leaving 70 killed. The British casualties were Lieutenant Fredericks and 12 men killed and Lieutenant Dickson and 20 men wounded.

Gift to His Native Kirk.

London, July 29.—Baron Mount-Stephen announces a gift of £40,000 to the Presbyterian church of Scotland, the income to go to the ministers in his native district of Aberdeenshire and Banffshire.

Bishop of Durham Dead.

London, July 29.—The Rt. Rev. Brook Foss Westcott, bishop of Durham, is dead. He was born in 1825.

BOYS WERE FIGHTING.

Father of One Interfered and Was Killed by Father of the Other.

Bedford, Ind., July 29.—At Reed's Station, this county, John Beasley was shot and instantly killed by Nelson Fritz and his son, the father emptying the contents of a shot gun into the victim's abdomen and the son firing two shots from a revolver into Beasley's head. The sons of Beasley and Fritz were engaged in a fist fight and when Beasley interfered on behalf of his boy the elder Fritz objected. A general row followed with results as stated.

Fritz and his son took to the woods and a sheriff's posse went in pursuit.

Sack of Silver Stolen.

Chicago, July 29.—A sack of 1,000 silver dollars has mysteriously disappeared from the Commercial National bank, and although several detectives have been put on the case, their efforts so far have been futile. The package, which weighed about 60 pounds, was left outside of the vault by mistake when the bank closed for the night, and since then no trace of it can be found. This is the second strange disappearance of a package of money belonging to the Commercial National bank in a year. Detectives are still looking for a bundle of \$20,000 in bills shipped by the bank with the Adams Express company to the National State bank at Burlington, Ia., Aug. 17, 1900. When the package was opened at Burlington it contained only clippings of papers.

Want Their Wages Raised.

Minneapolis, July 29.—The 543 nailers and packers in the 22 flour mills of Minneapolis have presented their employers a demand for \$2.75 per day for packers and \$2.25 for nailers, 25 cents more than they are receiving. They also demand a contract for five years. The employers have agreed to raise the wages but will enter into no contract. The men met and decided to demand a contract for only one year. If an active strike is declared the nailers and packers will have the support of the thousands of other employees in the mills.

Invented Electrical Switchboard.

Louisville, July 29.—W. H. Johnson, who is said to have invented the switchboard used in an improved form today by the Western Union Telegraph company, while he was employed in the manufacturing department

of that company in Cleveland in 1855, died of apoplexy. He was at different times connected with the telegraph, electric light and telephone businesses and was a charter member of the Old Time Telegraphers' association. Mr. Johnson was born in Williamstown, Mass., May 6, 1834.

HERO LOST HIS LIFE.

Dashed into a Burning Building to Rescue Girl He Loved.

Louisville, July 29.—It develops that Max Belovich, the cigar manufacturer, who lost his life in the fire that destroyed the Badgley-Graham photographic supply store, dashed up the stairs to save the life of a young woman to whom he was greatly attached, and who, he thought, was in a flat above. Policeman James Purdon, who also lost his life, went up stairs in the burning building in an effort to save Belovich. Fire Captain Timothy Lehan, Firemen Burnett Hardin, Charles Keller, Charles Brown and Harry Swain and Policeman John Hepp were injured either by being overcome by heat or smoke or by falling into the cellar of the burning building, none of them seriously.

The fire, which is supposed to have been caused by an explosion of chemicals, completely gutted the photographic supply store of the Badgley-Graham company, causing a loss of \$8,500, did \$5,500 damage to the stock of the W. D. Gatchell & Son photographic supply store, \$12,000 damage to the stock of the Stewart Dry Goods company and \$1,000 damage to the Creamerie restaurant. All these losses are fully or nearly covered by insurance. The building in which these firms did business was damaged to the extent of \$40,000.

Affidavits in Italians' Case.

Washington, July 29.—Mr. Carignan, the charge of the Italian embassy, laid before the state department affidavits from the Italian consul at New Orleans, the consular agent at Vicksburg, Miss., and the clerk of the circuit court of Washington county, Miss., to establish the nationality of the two Italians who were killed at Erwin, Miss., recently. Mr. Carignan is now awaiting reply of the state department to these documents before communicating with his home government as to the next step to be taken.

Gravel Train Wrecked.

Dayton, O., July 27.—A gravel train used by the Chase Construction company, which is superintending the construction of the traction line between this city and Troy for the Dayton and Northern Traction company, was wrecked eight miles north of this city, resulting in two deaths and the serious injury to four persons. The engine jumped the track while going down a steep grade, piling five loaded cars in a promiscuous heap alongside the road. Fourteen persons were aboard.

Boers the Victors.

London, July 29.—Telegraphing from Pretoria under date of July 26, Lord Kitchener reports to the war office as follows: "A detachment of the Steiner's Horse, occupying Bremersdorp, was forced to evacuate July 24 by superior force of Boers, probably the commandos from Amsterdam and Pietretic. The detachment fought its way to Lebobo, a distance of 16 miles, losing about 10 killed or wounded and a few missing."

Sentenced For Life.

Upper Sandusky, O., July 29.—Judge Tobias overruled a motion for stay of execution in the case of Marsh Lindsay and sentenced him to the penitentiary for life. Willis Miller also received a life sentence after the court overruled a motion for a new trial. Neither had anything to say why sentence should not be passed on them.

New Oil Company.

Circleville, O., July 29.—The Nebraska Oil company has been organized in Pickaway county with T. W. Baum as president and M. T. Brinker as secretary. They will put in some wells in the territory about 10 miles northeast of Circleville. The stockholders are prominent farmers and have subscribed \$5,000 stock.

Heid Without Bail.

Ironton, O., July 29.—O. H. Reoy, a justice of the peace in Elizabeth township was shot by his brother-in-law, Jacob Meyers, at the camp meeting grounds on Ellisonville Friday, died Friday night. The shooting was caused by a quarrel over lumber. Meyers is in jail here without bond. Both men are prominent.

Launch Capsized.

Detroit, July 29.—A naphtha launch used to deliver newspapers to the residents of the Lake St. Clair flats capsized about two miles north of the lighthouse during a sudden squall. Miss Maud Randall of this city, one of the four passengers, was drowned.

Carbondale, Ill., July 29.—Fire destroyed a bridge on the Gale division of the Illinois Central railroad, completely tying up all transportation.

MAY SOON BE SETTLED

Conference of Strike Leaders to Be Held Tuesday at Pittsburg.

SHAFFER'S MISSION AT NEW YORK.

Consultation With Schwab and Morgan Paves the Way For Negotiations Between Officials of Steel Trust and the Workmen.

Pittsburg, July 29.—The strike of the steel and tin workers of the Amalgamated Association against the United States Steel corporation will probably be settled this week. The conference held in New York between the officials of the corporation and President T. J. Shaffer and Secretary John Williams of the workers' organization has resulted in paving the way for renewals of negotiations between the two conflicting interests. It is said that a basis for such a conference has been arrived at. This basis will not be divulged until later in the week. If the basis is satisfactory to the general executive committee the conference between the association and the manufacturers will proceed at once. If, on the other hand, the basis is not what the Amalgamated Association considers negotiable grounds, the strike will continue.

President Shaffer and Secretary Williams of the Amalgamated Association returned from New York, where they spent many hours in conference with the leading officials of the steel trust, with hopes for an early ending of the strike. In Pittsburg little was known of the conference, but the greatest interest in the outcome was shown among the manufacturers. Secretary Williams admitted that he had been with President Shaffer in New York and had seen J. P. Morgan, but he would not say what had taken place there. He said he was pledged to secrecy. Asked if the terms as printed in the papers which covered the settlement of the strike were correct, he replied that they were purely guesswork, as no terms could possibly be made without the full consent of the general executive committee of the organization, of which a meeting has been called for Tuesday.

Secretary Williams denied that M. M. Garland or Joseph Bishop had anything to do with the conference in any way so far as he knew.

It is believed that before the end of the week the mills will all be ready to run again, providing repairs undertaken since the strike began are completed. Should the whole project fail of coming to an amicable end, however, the fight promises to be more bitter than ever.

Called to the Conference.

Wheeling, W. Va., July 29.—Vice President Walter Larkins of Amalgamated Association's local district received a call from President Shaffer for a meeting of the national executive board of the Amalgamated Association, to be held Tuesday morning in Pittsburg. Mr. Larkins said the call meant that another conference would be held by the board with the representatives of the steel combination Tuesday at Pittsburg. He feels confident the strike will be settled at this conference.

British Subject Wants Protection.

Denver, July 29.—William Radcliffe, owner of the lease on the Grand Mesa lakes in Delta county, has been summoned to Washington for consultation with the state department. This gives an international aspect to the recent shooting of two men by a deputy game warden, the burning of Radcliffe's hotel and the threatened lynching of Radcliffe by a mob of Delta county citizens. Radcliffe claims to be a subject of King Edward and has appealed to his government to protect his life and have him reimbursed for the loss of his property.

Importing Nonunion Laborers.

Sharon, Pa., July 29.—The American Steel Casting company imported another carload of molders and chipers to fill the places of strikers. The men were brought from the eastern part of the state in a special car. The strikers made no demonstration on account of the injunction secured against them in the Mercer court. The company expects to import another carload this week. It is not probable the grievances of the men will be arbitrated for some time, as the company seems determined to break the strike without making concessions.

Guest of Corrigan.

New York, July 29.—Among the passengers on steamship La Champagne, just arrived, was the Most Rev. Mgr. Farsaglio-Bayona, an archbishop of the hierarchy and apostolic delegate to the republics of Peru and Ecuador. The prelate is en route to Quito, Ecuador. It is his first visit to America, and before starting on his mission he

will remain in this city a few days as the guest of Archbishop Corrigan. An emissary of the archbishop received Mgr. Bayona at the pier and escorted him to the palace.

SERIOUS CHARGE.

Cleveland Man Taken to New York Under Arrest.

New York, July 29.—Daniel F. Myers, a member of the wholesale drug firm of Benton, Meyers & Co. of Cleveland, O., arrived here in charge of a detective who had arrested him on a warrant charging him with larceny in the first degree.

It is alleged that he stole a check for \$27,562 from the Manhattan Insurance company, of which he was formerly president, and which is now in the hands of a receiver. On January 1, the Manhattan Fire Insurance company made a report to State Superintendent of Insurance Hendricks to the effect that the company had an unimpaired capital of \$500,000 and a surplus above its liabilities of \$39,000. An examination of the books disclosed a record of a check for \$27,562, which apparently had been given for the private account of Mr. Myers in payment of a personal note given at the time of an issuance of 200 shares of stock. It was on this transaction that the prosecution was begun.

In court his counsel said that the check had been given as alleged, but that it was in payment of the note which was authorized by the directors. It was given to secure stock subscriptions. He said Mr. Myers had lost between \$50,000 and \$75,000 of his own money in trying to keep the company afloat. Mr. Myers was released in \$5,000 bail.

Ministers Agree.

Washington, July 29.—Confirmation of the amplest kind of the encouraging news that has come to the press from Peking relative to the settlement of the financial problems that have engrossed the attention of the ministers there for many weary months has just come to hand from Special Commissioner Rockhill. Moreover he adds to the general items already reported the news that the ministers will be ready to sign a protocol within two weeks, that will result in the speedy withdrawal from China of all foreign troops except the legation guards and those who will occupy the certain strategic points to be held under the treaty to safeguard the road between Peking and the sea.

Sherwood Declines.

Cleveland, July 29.—A committee which included George A. Groot and others prominently identified with the Bryan wing of the Democratic party in Ohio called upon General Isaac R. Sherwood in this city with the request that he permit his name to go before the Bryan convention to be held at Columbus, July 31, as a candidate for governor on an independent ticket. General Sherwood is understood to have declined the honor, saying that he was not in sympathy with the movement and would not under any circumstances accept the nomination.

Robbed the Paymaster.

Manilla, July 29.—During the payment of the troops at Santa Cruz, Luzon, \$20,000 was stolen from the guardhouse. The robbery of the paymaster's safe is supposed to have been the work of soldiers. It appears that Major Canby, who was paying the troops in the Laguna district, left the safe in the guardhouse, and that while it was there, the thieves succeeded in abstracting its contents. General Chaffee has sent the chief of Manilla detectives to Santa Cruz to investigate the affair.

Result of Chile Election.

New York, July 29.—A dispatch from Valparaiso says the electoral college has just cast its vote for Jeronimo Riesco for president of the republic of Chile. All the members of the cabinet have tendered their resignations in order to leave the new president to nominate a new cabinet in accordance with the views of the Parliamentary party. It is believed the present cabinet will remain in office until Sept. 18, when Senator Riesco will assume the presidency.

Coming Home.

Havana, July 29.—General Wood was taken on board the steamer Moro Castle. He expressed himself as being quite well and wanted to walk aboard the vessel, but the doctors insisted upon his being carried on board on a portable cot. Deep sympathy with General Wood was shown by Cubans of all classes upon his departure. The Moro Castle is due in New York next Tuesday.

Machine Shop Burned.

York, Pa., July 29.—The machine shop of the American Machine and Foundry company, located at Hanover, was destroyed by fire. Loss is estimated at from \$75,000 to \$125,000. This plant was owned by the American Tobacco and was used in the manufacture of its machinery. Two hundred men are thrown out of employment.

RAINS BROUGHT RELIEF

Came Too Late to Save All the Corn Crop of Western States.

BACK OF THE DROUTH IS BROKEN.

Kansas Farmers Will Try to Raise Fall Crops For Feed—Late Crops May Derive Some Benefit. More Showers Promised.

Washington, July 29.—Weather bureau advices from the great corn belt are the most encouraging that have come to hand for 40 days, showing in the opinion of the forecasters that the great drouth has been broken by a general visitation of rain in many portions of that section, and with a prospect of their continuation. Coincident with the fall of rain has come reduced temperatures. With few exceptions the temperatures reported are not abnormally high, none exceeding 100 degrees being reported.

The forecasters, while not making any specific predictions as to the effect of the rain on crops, express the opinion that late crops will be helped.

The reports show that showers were quite general in the corn belt and were heavy over much of the state of Iowa and over that part of the corn belt not previously visited by rains, including western Nebraska, southern Missouri and Oklahoma. There also were showers and thunderstorms in the northern tier of states from New England to the Dakotas, in northern New Mexico, northern Arizona and southern Utah, and on the west of the gulf coast.

There will be showers throughout the corn belt region except in its extreme western portion, and southern Indiana and southern Ohio, and continue generally Tuesday in the Ohio and middle Mississippi valleys.

Kansas Drouth Broken.

Atholison, Kan., July 29.—The drouth in northern Kansas, which has lasted without interruption since April 15, was broken by good rains. The Missouri Pacific railroad received reports from all its stations which extend 300 miles westward from the Missouri river and northward into Nebraska, and all except two or three report a downpour of from a fourth of an inch to two inches. The rain lasted in most places three or four hours. While the recent rains have covered central and southeastern Kansas, they had not previously touched the northern counties.

Nebraska Corn Revived.

Lincoln, Neb., July 29.—Reports from over the state show the rains that visited Nebraska have left the corn in many localities in better condition than at first thought. The fall of rain ranged from half an inch to three inches. This, while not of much help to the hay crop, will make good fodder in all cornfields and in many places will make from one third to a full crop of corn. In some localities, however, there will be no corn.

Hot Sunday at Cincinnati.

Cincinnati, July 29.—One death and eight prostrations on account of the heat was the record here Sunday, with a maximum temperature of 101. At night there was great relief from western winds and much lower temperature.

Kansans Plant For Forage.

Topeka, July 29.—Copious rains again fell throughout Kansas all along the line of the Santa Fe and far out to the western part of the state. Farmers of the state will begin replanting turnips, kafir corn and sorghum for forage.

Good Rain in Iowa.

Bedford, Ia., July 29.—The drouth in this section is broken. About three inches of rain fell Sunday. This means an 80 per cent corn crop in this locality.

All-Day Rain at Kansas City.

Kansas City, July 29.—Rain fell here almost continuously Sunday, amounting to over an inch.

Skipper Accused of Cruelty.

Miami, Fla., July 29.—Andrew Brown, late chief officer of schooner Lucy W. Snow of Providence, R. I., made an affidavit here charging that J. B. Scott, master of that vessel, permitted one of the boat's crew, who is believed to have been Ramon Casaderrail, a Spaniard, to drown without attempting to aid him. According to the affidavit the man fell overboard about eight miles north of Jupiter Light, Fla., "the weather being fine; that said commander, Scott, did not order a boat out nor make any effort to save the seaman, merely remarking to the said chief officer, Andrew Brown, that it was 'no use, no use.'"

Gouréck, July 29.—The Shamrock II., accompanied by the Erin, sailed for New York. Great enthusiasm was displayed as the challenger departed.

SENATOR WELLINGTON charges that the administration is responsible for the attacks on Rear Admiral Schley and that it does not want him vindicated. But the country is on to the clique who are trying to down him.

JOHN F. JOHNSON, who wrecked a national bank at Logansport, Ind., four years ago, stealing \$500,000 of the depositors' money, has been pardoned by President McKinley. Who ever heard of a bank wrecker serving out his sentence? The President can generally be relied upon to turn them loose after a short term in the "pen."

The New Orleans Times-Democrat was right when it said:

It is really atrocious to read that steel-forgings for the shafts of men-of-war cost \$26 per pound in this country, while the same class of goods is sold in England for 47 cents. But of course it is the doing of a trust, and it is a sample of the trust method of operating.

The Government protects the trusts and then they turn about and hold up Uncle Sam and force him to pay these exorbitant prices. There is no end to their greed.

P. BOOKER REED, who recently figured in the Republican primary at Louisville as a candidate for Mayor, has given utterance to this strong language: "I have been defeated by the most damnable and barefaced robbery that a man ever had to contend against." Col. John Mason Brown adds this:

As Republicans with nerve and backbone we can't show to the world too early our decided opposition to this damnable political cut-throating. The sooner we show to the heads of the party and to respectable men everywhere what a damnable gang of politicians dominates the party in Louisville, the sooner will it result in the good of the party. The primary was the rottenest that was ever held in the State.

That must be a black set of rascals and robbers running the Republican party in Louisville. If the "ins" were out, they would likely be expressing as strong an opinion of the other fellows.

McKINLEY PRICES FOR WOOL.

With the highest tariff on wool that the country ever saw, standard Ohio wool is now cheaper than it was before the Dingley tariff rates were adopted. The "protective" tariff, instead of stimulating wool prices, has stimulated phenomenally the production of cheaper substitutes for wool. "Science and enterprise have caused various treatments of other fibers in such a way that the world is getting along with less wool than it formerly needed," remarks the Chicago Chronicle. "The flocks are decreasing in number and the wool supply is falling off. Yet the price goes down and down. Ohio fleeces which were worth 35 cents a pound in 1900 are now worth but 27 cents a pound. And the professional wool growers are saying that they must have a still higher tariff. They learn nothing. They would find that a higher tariff would have the effect to increase still more the supply of substitutes for wool. As the tariff on wool goes up the price of wool will come down."

I was born a Republican and have been a Republican all my life, but if the United States steel corporation is to be permitted to wage war on organized labor; to say that it will not permit its employees to unite for their mutual benefit, but will crush them if they attempt to form unions which will try to protect them and give them better wages and conditions, then I will seek another party.

This statement was made by President Shaffer, of the Amalgamated Association of Steel and Iron Workers, at Pittsburgh. Continuing he said:

What has been the history of the party? The formation of trusts which absorbed the prosperity of the country and crushed the workmen who tried to organize and thereby get an honest share of what he produced, or at least helped to produce. When did the Republican party help the workingman in his struggle for a decent living and employment under fair conditions? What happened to the party in 1892 after it failed to support the men who had given it a victory four years before? Disaster overtook it. It profited by that experience last fall when the strike of the hard coal miners on the eve of a national campaign arose as a specter before its leaders. Mark Hanna saw the point, and, by his power, forced a settlement.

Mr. Shaffer is now playing his last card. It was announced Friday that he was working to have Hanna intercede for the strikers, using as an argument the effect of the strike on the elections this fall. It remains to be seen what Hanna and the steel magnates will do for the workmen.

Kentucky's Free Mail Delivery.

[Paducah Leader.]

The dispatch from Washington, printed yesterday, expressing surprise that Kentucky is so far behind other States in the matter of establishing rural free mail delivery should arouse the people to a proper appreciation of the advantages that are theirs if they but want them. With only thirteen routes in the State against the hundreds in other States, the showing is one that does not do Kentucky much credit, and active steps should at once be taken to have free delivery in all the counties. It is not only a great advantage to the farmers, but insures good roads wherever in vogue. Efforts are now being made to get it in McCracken county, and a route is soon to be established. Other counties should follow suit.

Struck Oil in Bourbon.

[Paris Democrat.]

Wm. Bramblett, who owns the old Crouch farm, near Plum, this county, made a big discovery of oil on his farm one day last week.

Workmen were digging post holes, and in the operation a large rock was struck. Not knowing the thickness of the rock, they attempted to dig through it, and to their surprise found it to contain the blackest sort of oil. The rock was removed and then a heavy flow of water and oil came rushing to the surface. The oil was easily separated from the water, and a quantity of it was bottled and sent off to be tested. The post hole was only dug about two and a half feet, and it along the line of a branch.

Miss Bettie Proctor is critically ill at the home of her parents, Mr. and Mrs. T. K. Proctor, of the Sixth ward.

The C. and O.'s earnings the third week of July show an increase of \$34,339.

Milo B. Atkinson, of Tollesboro, has received a call from the Vanceburg Christian Church.

Mrs. Harriet A. Stickley has removed to her old home at the northeast corner of Third and Poplar streets.

Subscriptions in aid of the Elks fair are still being received. Up to noon Saturday they amounted to \$976.

Positively the best cut yellow poplar shingles on earth. Samples at R. A. Carr's and Limestone Mill, Maysville. Address, D. G. Wilson, Orangeburg, Ky.

Rev. R. E. Smith, a Methodist preacher of Berea, died Friday, making the third death in his family during the week. His wife and eight surviving children are all ill.

Mr. W. H. Boyd, of Dover, finished cutting nine acres of heavy timothy hay Friday with a binder, and now has it all in bundles.

The General Association of the Colored Baptists of Kentucky will be held in Versailles the week beginning August 13th. Over 250 colored preachers and delegates are expected to be on hand.

Arizona physicians have completed exhaustive tests and found very satisfactory results from the use of apple cider as a preventative and cure for smallpox. In every instance where pure cider was used cures were effected.

The L. and N.'s comparative statement of estimated gross earnings dated July 26 shows the earnings for the three weeks were \$516,240, an increase of \$17,255 over the same period last year. The total for the three weeks was \$1,510,605, and the increase \$98,750.

Kelly Fleisher, of Levanna, caught a catfish on a trotline in the river Thursday that was as large as a man and weighed 100 pounds, says the Dover Messenger. The big fellow swallowed an eel which was hooked on the line, and was landed after a long struggle.

J. Sims Wilson, of Paris, sold Thursday to Mr. Smathers, of New York, his fine trotting mare, Iva Dee, for \$11,000 cash. Mr. Smathers also repays Mr. Wilson all entrance fees that have been paid, which makes the price about \$13,000 which Mr. Wilson received.

The suit recently filed at Mt. Sterling by Thomas J. Bigstaff against Appellate Judge Ed. C. O'Rear for \$11,000, the amount the former claimed was due him in a settlement of partnership affairs, came to a close Friday afternoon, when Bigstaff filed an amended petition dismissing the action and paying the cost.

An effort may be made to have the next Legislature amend the laws governing the charitable institutions of the State in order to place them under the management of a paid commission composed of three or five members, instead of being under the various boards of commissioners who are now in control of these institutions.

Dover Messenger: "Mr. Charles W. Lurley is now temporarily located in South Africa where he is prospering in business. His mother, Mrs. Louisa M. Lurley, recently received a letter from her son, who reports himself in good health in the far away Transvaal. Mr. Lurley's family will soon come to Dover to reside with Mrs. Louisa M. Lurley in his home home on Market street."

In the County Court at Newport, George Veith was appointed administrator of the estate of Willie Strasberg, who was killed by a C. and O. train at Maysville. Attorney Veith is preparing to file suit against the C. and O. because of the boy's death, and will also institute similar action because of the death of Charles Duncley and the crippling of Elmer McCabe. Mr. Veith will have a hard time convincing a jury the railroad company should pay any damages. The boys admitted they went to sleep on the track.

Miss Lottie Culver Jones, of New York, a sister of Mrs. James S. Pogue, of Maysville, will give a recital at Ashland in September. An exchange has the following to say of her: "Miss Jones is one of New York's most gifted readers. She has all the attributes to make one, a voice full of sympathy, power and music, a figure graceful and commanding, a classical face, a faithful mirror of the whole kaleidoscope of human emotions, and a personality which is always charming. Gifted by nature with magnetism of voice and stage presence she has by insistent and intelligent study lifted her art into the realm of history."

Notice to Wheelmen.

There's positively no need to endure discomfort by reason of chafing, sunburn, insect stings, sore and perspiring feet or accidental bruises. You forget these troubles in using Bucklen's Arnica Salve. Infallible for pimples, blotches, skin eruptions and piles. Sold by J. J. Wood & Co.; 25 cents.

Sincerity

Has characterized this store ever since its beginning fifty years ago. How we gain and keep the confidence of our patrons becomes more apparent every year. We rank with the "Dependables." You know what we say, is.

SOME

Corset Truths!

When you buy a Corset isn't it a joy to find the kind that fits—just snugly enough, just comfortably enough? Corsets that fit from the day you put them on until the day you come back for another pair. All this is embodied in our P. N. Corset. We never offered a corset which has met with such a cordial reception. Sales climbing every day. Customers are the best advertisers. A woman buys a P. N. and tells a friend of its comfort and general satisfaction. She in turn buys one and tells a third and so it goes. There's solid merit in a P. N. There's economy and comfort. In a word there is more in a P. N. that women will appreciate than in any corset made.

Fine Coultie or batiste cut on a careful bias to give the corset straight front, rust proof boning, cork stay protectors—these are a few of the merits.

The Investment Company has taken its place as a permanent institution, and the prejudices that obstructed its early growth are disappearing in the light of experience in its workings. For many months the people of Mason County have been sending over \$1,000 a month to be invested in companies at Lexington and other places. Now that we have a company at home whose plan is the latest and most approved, and whose managers are personally known to you as men of standing and integrity, why not put your investment with them? Patronize your home institution and your city and county will develop.

There is still a lingering prejudice in the minds of many people against the investment business. This arises largely from lack of information as to the real principles upon which the business is founded.

Our older citizens remember when the first building association was started in Maysville. There was a great deal of opposition to it, but it lived down the prejudice and was the forerunner of the three prosperous institutions of that kind in Maysville. The building association depends for its success entirely upon co-operation.

Life insurance was a rarity in Maysville in the preceding generation, but now it is difficult to find a man entirely uninsured, who is healthy enough to stand a medical examination.

Life insurance is run upon precisely the same principles as an investment company, but pays the profits to the dead man's estate. Our plan is open to the sick and feeble to whom life insurance is barred, as well as to the healthy and strong. Don't let prejudice stand in your way because the business is unfamiliar to you, but investigate for yourself, and you, like others, will be convinced. Call at our office or write to the

How to Make Pot Cheese.

When you have a couple of quarts of clabbered milk, pour it into a tin pail or a saucepan and stand it in another large kettle with hot water over the fire. Let it stand till the milk is just heated through; then pour it into a bag made of cheesecloth. Hang it up and let it drain till perfectly free from whey, which is the watery part of the curdled milk. When it was drained, empty the curd from this bag into an earthen dish, wet it with a little cream, mix a generous quantity of butter with it, working it through with your hands. Season it with a little salt and make it up into balls or pats and put it away in a cool place.

How to Cure Wrinkles.

After well washing your face at night in hot water, using any good soap, dry thoroughly and then rub in a little good old cream, well massaging the wrinkled part. Wipe off any superfluous grease and then bathe in cold water, to which rosewater and simple tincture of benzoin, which any chemist will mix for you in the right proportions, have been added in the proportion of half a teaspoonful to a pint, till your face glows. Afterward dry thoroughly.

What does it all mean that a person is kind? That he remembers other people; that he is not bound up with his own affairs; that he is capable of making sacrifices; that he is willing to serve his fellow men. It means that his heart is not turned to stone, but to flesh.

THE BEE HIVE

OUR ARM IS LONGER!

George Washington is said to have once thrown a dollar across the Potomac River. This is a long way for a dollar to go, but it isn't a circumstance to how far a dollar will go at the Bee Hive. Selling you merchandise for one dollar what other merchants would charge you two is what we call making a long throw. Even if "George" could have thrown a dollar from Maysville to Aberdeen he would have had to throw twice to equal the distance our dollar goes. Washington was like other Merchants we know—his arm was shorter than it really ought to be.

The summer is drawing to a close. We are anxious to sell what we have left in summer goods. We have marked the prices down. Come and see.

THE GREATEST CIVILIZER.

Business Men in Foreign Parts Speak of Great Wonders Being Accomplished by the Bible.

[Enquirer.]

Rev. George S. J. Browne, District Secretary of the American Tract Society, told the Enquirer that it is wonderful the extent to which Cubans, Porto Ricans and the Filipinos are besieging the officers of the American armies for religious literature.

"Hundreds of requests are made daily to these officers for 'plain statements of the American religion,' as the natives put it," said Mr. Browne. "They are given plain statements of what the Bible says, without any controversy."

The quantities of such statements being thus distributed would amaze the American public. In order that the best of works may be continued we are receiving subscriptions from all kinds of sources. A well-known Catholic business man of this city has been sending us a large check regularly for this special work. People of other and various denominations are doing the same thing.

We are now distributing the plain Word of God in over 165 languages. Many letters from prominent business men in the foreign localities I have named tell us of the wonderfully great civilizing effect of the millions of copies of the plain word of God that we have already sent out, and thanking us for the work they inclose their checks for its continuance. Major General O. O. Howard is President of the society."

Raising Tobacco Under Canvas.

[Tartiffville (Conn.) Cor. Philadelphia Ledger.] The novel experiments which have been made on a large scale by tobacco farmers of this State recently in raising tobacco under canvas were investigated to-day by Secretary of Agriculture Wilson and ex-Secretary of the Navy W. C. Whitney, who paid a short visit here. Mr. Wilson is engaged in looking over the tobacco farms in the interest of the Government. It was stated here that Mr. Whitney believed that the new schemes would revolutionize the tobacco raising industry in this country, and that he is at the head of a syndicate to ultimately purchase the greater part of the tobacco farms.

Mr. James Douglass, of the Fifth ward, has returned from a trip to points in Missouri and Kansas. For coughs, colds, asthma, croup, hay fever, hoarseness and whooping cough it is the quickest, surest cure in the world. It is sold by J. Jas. Wood & Son who guarantee satisfaction or refund money. Large bottles 50c and \$1.00. Trial bottles free.

DANIEL HUNT.

A Venerable Maysville Citizen Suddenly Stricken.

Death Claims This Well Known and Highly Respected Business Man—Passed Away Sunday at 4 p. m. at Glen Springs.

The news of the sudden death of the venerable Mr. Daniel Hunt came as a great shock to his many friends.

He was suddenly stricken with heart disease Sunday at 4 p. m. at Glen Springs, dying almost instantly.

Mr. Hunt had been suffering from weakness naturally resulting from old age and its infirmities, and left only a few days ago for the Springs where it was hoped he would recuperate his failing strength. He thought the brief stay had done him good and wrote to his family to that effect.

Sunday afternoon at the hour named he was seated talking to Mr. Ben Poyntz, Captain Phister and others when he suddenly sank back in his chair and expired. Peacefully the sleep of death had come to this venerable man.

Mr. Hunt was a native of England and was seventy-five years of age the 11th of last December.

For over fifty years he had been a resident of this city, and was one of its oldest and most substantial business men.

For a long time he was a member of the well known dry goods firm of Mullins & Hunt. After the death of his old partner, his only son, Mr. John M. Hunt, was associated with him in the business, and it has since been conducted with great success under the firm name of D. Hunt & Son.

Probably no citizen of Maysville had a larger acquaintance and more warm friends in the city and surrounding country than Mr. Hunt, and he was held in universal respect.

Mr. Hunt is survived by one son, John M., and three daughters, Miss Katie, of this city, Mrs. G. W. Bramel, of the county, and Emma, who is a member of the Sisters of the Visitation and who is known in the religious world as Sister Mary Gertrude.

The remains were removed to his home in this city this morning.

The funeral will take place Tuesday afternoon at 5 o'clock at the Church of the Nativity, of which deceased had long been a devout member. Interment at Washington.

Four of the children sent away from Cincinnati by the Post for a month's outing in the country are being cared for in this county, Mrs. Dan Lloyd, of Germantown, having charge of two little girls and Mrs. C. A. Kirk, of near Dover, caring for two little boys.

Poyntz Bros. are the only Maysville distillers selling pure liquors by the quart, gallon or barrel, direct from distillery to consumer. Seven-year-old whisky \$2 per gallon. Age and quality guaranteed. Get the best. Office 126 Market street—Watson's old stand.

The Democratic Senatorial convention in the Bracken-Pendleton-Grant district will be held to-morrow at Falmouth. Hon. W. A. Byron, of Brooksville will probably be the nominee. Grant sends an unqualified delegation, but it is understood that her vote will be cast for Mr. Byron. The Grant County Democrats adopted a resolution endorsing James B. McCreary for United States Senator and requesting that their Senator and Representative vote for him.

The following compliment to Mrs. Harriet Glascock-Hull from the New York Chautauqua is of interest to her relatives and friends in this city and county: "That ambitious Southerner, Mrs. Harriet Glascock Hull, captured the prize offered by the Assembly for the best impersonator in the annual contest. This is an honor of which to be proud. Mrs. Hull is a Kentucky woman whose delineation of Southern life has made her one of the season's most popular artists. Prior to her marriage three years ago she was a familiar entertainer on the Eastern rostrum and her many admirers welcome her back."

The thirty-sixth annual convention of the Kentucky Sunday School Association is announced for Danville Tuesday, Wednesday and Thursday, August 20, 21 and 22. Each Sunday school is entitled to one delegate for each 100 or fraction thereof enrolled. These delegates should be appointed the first Sunday in August, and their names sent at once to J. S. Trisman, Danville, so entertainment can be provided. In addition to these the county is entitled to ten delegates at large. All ministers are ex-officio delegates. These delegates must secure credentials from their county officers, which entitles them to free entertainment while there. The railroads will give reduced rates to all who desire to attend the convention.

Enyart, Cannonsburg; Grand Vice Chief, John F. Stewart, Rush; Grand High Priest, H. Green Hicks, Olive Hill; Grand Sir Herald, John H. Swearingen, Greenup; Grand Keeper of Exchequer, Tom

C. Webb, Denton; Grand Master of Records, Orlando L. Shay, Enterprise; Grand First Guard, Chas. F. Steigemeir, Newport; Grand Second Guard, Samuel Edgington, Springville; Grand Trustee, Jacob Swope, Covington; Supreme Representative, Chas. P. Matti, Bellevue. The Grand Lodge convenes at Rush August 13th for a five days session.

The Elks are arranging to open their fair with a big street parade, in which all the mercantile and manufacturing interests of the city, as well as the secret orders, will be asked to participate. Messrs. Charles A. Walther, Thomas M. Russell, Captain Horace J. Cochran, C. L. Rozenham and George W. Griffin have been appointed to arrange for the parade.

Because You Were Born BAREFOOTED

Is no reason why you should go thro' life in that painfully uncomfortable condition. W. H. MEANS, Manager Dan Cohen's Great Western Shoe Store, offers to sell you good E. Z. Shoes that are also up-to-date so cheap that you would be ashamed of injustice to yourself if you did not buy and wear them after examining them.

Pithy Points.

We suppose Mrs. Nation will find it harder to break jail at Topeka than it was to break saloon fixtures.

Wonder whether Mrs. Nation was allowed to carry her side arms into the Topeka jail?

In no civilized country on the globe would subordinate officers be allowed to vilify and traduce their superiors in the style that Egan and MacLay have done. It's very evident the gentlemen were backed up in the matter by the powers that be.

Likely all the investigation that may be had concerning the naval fight at Santiago won't make it apparent that Sampson was there or took any part in it.

When a child pushes a button or some other hard substance into its nostril, put one finger on opposite nostril to close it and blow in the mouth, when the obstruction will be expelled.

A Poor Millionaire

Lately starved in London because he could not digest his food. Early use of Dr. King's New Life Pills would have saved him. They strengthen the stomach, aid digestion, promote assimilation, improve appetite. Price 25c. Money back if not satisfied. Sold by J. Jas. Wood & Son, druggists.

How to Make Bread Crisps.

Bread and butter crisps to serve with salad need a fresh loaf baked so as to give a square slice. With a sharp knife cut off all the crust, butter one end of the loaf and shave off in the thinnest slices possible. Roll each slice tightly and fasten with a wooden toothpick. Lay on a flat pan and place in a quick oven until crisp and lightly browned. Remove the toothpick and serve hot, pile on a plate over which is laid a folded napkin.

Advertising Taste.

Taste in advertising is becoming as pronounced as taste in dress. The progressive clothier or dry goods man now endeavors to put his announcements before the public with the same carefulness of detail as to correct form that he would use in building a suit for a man of fashion or a frock for a mode woman. The matter of the advertisement, its wording and arrangement are made the subject of as careful study as are the lines of the figure to be clothed or draped. Then, when the matter is carefully thought out, the printer's art is invoked, and the utmost taste and skill of typography are put to use in the choice of types and illustrations and the arrangement of paragraphs and lines. This sort of advertising pays, and it is encouraged by the trade journals.—Fort Worth (Tex.) Telegram.
